

Continuation of Computer Training Program

Venue: Kampilye, Agra

Date: June, July, And Aug'06
Farrukhabad, Delhi

&

Tailoring, Stitching & Embroidery Training (Kampilye)

Venue: Vill. Kampilye

Profile of Participants: Young Girls/boys, some college students, some graduates

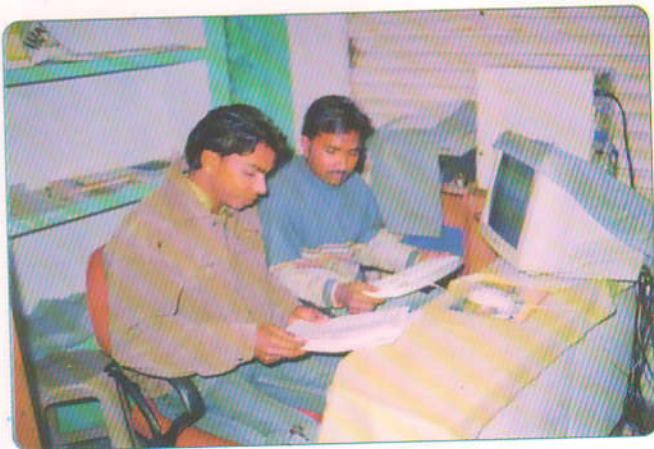

Subject: DTP-Coral Draw

Main Objective: Equip the local women/youth with IT skills to be entrepreneurs or get suitable jobs in the years to come.

Methodology: Theory & Practical lessons in sessions of approx one hour, six days a week (except holidays).

The center having registered above hundreds of participants so far, it was decided to expose them gradually to the DTP Graphic Designing & then identify the best 30-40 students in each category for intensive training in the subjects. Two sessions per day were conducted for the Desk Top Designing (DTP) courses.

Motivating Factor: The coming up of the Polyhouse (supported by FAO) has also raised enthusiasm of youth as they will have an opportunity to later record progress of this via computers as some of these participants will be chosen for the work.
